

Clark County Building and Fire Prevention Field Inspection Division **FIELD INSPECTION GUIDELINE**

Division:	Inspections	Policy & Procedure:	FIG-M-003
Subject:	Review & Performance Test / Certification	Effective Date:	11/16/1999
Code:	2018 UMC Amendment Section 511.2.2.1.1	Revised Date:	9/07/2021
Proposed:	Matthew Brewer	Approved:	Jim Gerren

Interpretation:

The above amendment section cites the requirements for performance tests on exhaust equipment used in conjunction with commercial heat-processing equipment. This amendment of the Clark County Mechanical Code, Section 511.2.2.1.1 provides the installer the option of performing the test using an approved third-party testing agency or, at the discretion of the Building Official, using a Building Department representative that shall witness the test by an approved third-party testing agency.

Field Application:

When performance testing is verified by a third-party (QAA), a completed copy of the report shall be uploaded under the BDIA number by the QAA agency. The submittal of the report will create a Type I or Type II inspection scheduled in the name of the mechanical inspector assigned to the area. A copy of the submitted form must also be kept on site, to be used for inspection purposes.
